<b>CONTENT</b>				
• Was organized and easy to follow				
• Met the objective(s)				
<b>TRAINER</b>				
• Knows and understands the topic				
• Was well organized and prepared				
• Was clear and easy to follow				
<b>RELEVANCE – as a result of this training...</b>				
• I gained factual information				
• I gained a better understanding of the topic				
• I have developed more skills and competencies				

**Suggestions for Improvements:**

**Suggestions for Future Topics:**

**Required for Physicians, PAs, APRNs Requesting CMEs**

**Please Rate the Following Statements:**

	<b>Strongly Agree</b>	<b>Agree</b>	<b>Disagree</b>	<b>Strongly Disagree</b>
1. This was a quality CME activity and met the following objectives:				
• Understand how to diagnose autism and consider co-morbid diagnosis				
• Understand the course of autism in early adolescence and adulthood				
• Plan the medical work up and proper referrals for an individual with autism				
• Understand why it is important to explore etiology at any age				
• Understand treatment over the lifespan				
• Understand what transition means				
• Learn what resources are available to the medical community and to families				
2. This CME activity will favorably influence my ability to practice medicine as a leader, teacher or researcher.				
3. The program clearly indicated whether or not this CME activity received commercial support.				
4. I observed no overall commercial bias in this educational session.				
5. I would definitely recommend this CME activity to my colleagues.				

A. Please provide comments in support of your ratings, including the name of any speaker you believe revealed commercial bias.

B. Did the CME program communicate any conflict of interest or lack thereof?

Yes (If 'yes' please proceed to question C below)       No       I do not recall

C. If you answered 'Yes' to above question, how was the conflict of interest communicated?

Promotional material       PPT slides       Introductory Remarks  
 Handouts       I do not recall       Other (please specify)
