

16th Annual Yale Pediatric Update

The Annual Yale Pediatric Update was started 16 years ago, in response to requests for high quality CME addressing advances in the field of pediatrics and topics of practical interest. The course is designed to meet the educational needs of pediatric practitioners seeking tools, resources, and evidence-based recommendations for evaluating and managing a variety of both common and potentially serious pediatric health conditions. This year's plenary topics include: adolescent vaping, visual effects of concussions, recognizing child predators, medical error reduction, muscle pains associated with hypermobile joints, GE reflux and endocrine disrupting chemicals; with breakout sessions on pediatric gynecology, office nephrology, and anxiety and mood disorders.

Conference Faculty

COURSE DIRECTOR

Linda Arnold, MD

Associate Professor of Pediatrics and Emergency Medicine

FACULTY

Andrea Asnes, MD, MSW

Associate Professor of Pediatrics
Director, Yale Pediatric Residency Program

Darron Bacal, MD

Assistant Clinical Professor of Ophthalmology
Eye Physicians & Surgeons, PC

Deepa Camenga, MD, MHS
