HUSKY Health Program and Charter Oak Health Plan
Prior Authorization
Objectives

• Gain knowledge about what types of prior authorizations are processed

• Have a better understanding of how to submit a prior authorization request

• Learn more in-depth detail about the PA process at CHNCT
Introductions

• Community Health Network of Connecticut, Inc. is the administrative services organization (ASO) for the HUSKY Health Program and Charter Oak Health Plan.

• The ASO model of care covers all of the Department of Social Services (DSS) medical assistance clients.

• All HUSKY Health and Charter Oak members receive all health services only from CMAP-enrolled providers.
Overview

• Prior Authorization (PA) is approval from the Department of Social Services (DSS) or its contracted administrative services organization (ASO), for the provision of a service or the delivery of goods before the provider actually performs the service or delivers the goods.

• To receive reimbursement from DSS, a provider must comply with all PA requirements. DSS has sole discretion to determine what information is necessary to approve a PA request. Obtaining PA does not guarantee payment or ensure client eligibility. It is the responsibility of the provider to verify client eligibility for the appropriate date(s) of service.

Professional/Surgical Services
Prior Authorization Instructions
Prior Authorization Requirements for Surgical Services

- All elective inpatient hospital admissions require prior authorization.
- All outpatient surgical procedures, as determined by the Physician Surgical Fee Schedule, require prior authorization.
- The updated fee schedule can be accessed and downloaded by going to the Connecticut Medical Assistance website at www.ctdssmap.com. From this web page, go to “Provider Fee Schedule Download,” then to “Physician Surgical” in order to locate the surgical procedure fee schedules.
- A ‘Y’ in the column titled ‘PA’ indicates a prior authorization requirement.
Prior Authorization Requirements for Surgical Services

- All requests for elective inpatient services and any requests for outpatient surgery (as determined by the Physician Fee Schedule) should be submitted by sending a completed request form to CHNCT by either fax 1.203.265.3994 or phone 1.800.440.5071.

- Appropriate forms can be downloaded from the web portal at www.huskyhealthct.org. Click on For Providers, Provider Bulletins, Updates and Forms and then accessing the Inpatient Surgery PA Form or the Outpatient PA Request Form.

- Requests must include all pertinent clinical documentation to support medical necessity of the procedure.
Prior Authorization Requirements for Laboratory Services

• Prior authorization of genetic testing is required with the exception of those tests used for cystic fibrosis screening during pregnancy. Coverage determinations will be based upon a review of requested and/or submitted case-specific information.

• Requests for the prior authorization of genetic testing must be made using one of the “new” 2012 CPT codes (81200 – 81408) specific to the test being requested. The new code must be supported by the codes billed prior to January 2012 (83890 – 83914) as “stacked” codes with the number of units for each.
Prior Authorization Requirements for Laboratory Services

• If there is not a “new” 2012 code specific to the test being ordered, prior authorization should be requested using the codes billed prior to January 2012 (83890-83914)

• A complete listing of molecular pathology and molecular diagnostic procedures requiring prior authorization may be found on the “Lab Fee Schedule” located on the DSS Connecticut Medical Assistance (CMAP) website www.ctdssmap.com under “Provider Fee Schedule Download.”

• The Genetic Testing clinical policy can be found on www.huskyhealthct.org. Click For Providers, then Policies and Procedures.
